

Mathematical Reasoning

Test Topics

Basic Math

Geometry

Basic Algebra

Graphs and Functions

Time (to take the test)

115 minutes

Includes 2 minutes of instructions and final review

Includes 3-minute break between parts (to retrieve your calculator in test center)

Format

Access to calculator reference sheet and math formula sheet

* Access to onscreen calculator on part 2 of test

* Your own TI-30XS calculator allowed in test center

Multiple choice and other question (drag and drop, fill-in-the-blank, select an area, and drop down)

Here's what you need to know:

- You should be familiar with math concepts, measurements, equations, and applying math concepts to solve real-life problems.
- You don't have to memorize formulas and will be given a formula sheet in the test center as well as on the screen in the test.
- Use the free Math Study Guide to start studying. It will help you understand the skills being tested
